

EnFinCap:
Entrepreneurship and Financial Capacity for Women

Introduction

According to Eurostat, women in Europe are significantly less likely to opt for self-employment than men.

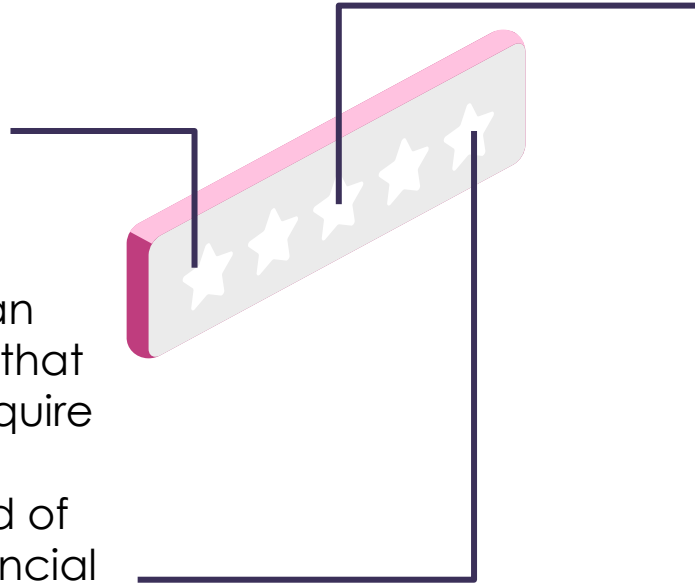

The challenges that discourage them from entrepreneurship and self-employment are multifaceted and tied to human capital; e.g. women have less entrepreneurial experience, less social capital, less knowledge of entrepreneurship and finance.

Project Results

PR1 - Map existing competencies in partner countries on entrepreneurial and financial "literacy", existing competencies, knowledge

PR2 - A platform (with an e-course) that will ensure that women entrepreneurs acquire knowledge, skills and competencies in the field of entrepreneurship and financial literacy (+ e-textbook)

PR3 - Create training materials and develop and implement a platform and course through "short - term staff training"

Co-funded by
the European Union
